Location: Islamabad Pakistan (Willing to Relocate)

Summary

I am a full-stack web developer with **over three years of experience**, proficient in both frontend and backend development, specializing in the **MERN stack and React Native Expo**. I have successfully built and launched platforms such as RoboDialog and TrinityPad by utilizing technologies like Next.js, MongoDB, and Node.js. My expertise includes crafting responsive, SEO-optimized web applications, integrating third-party APIs, and enhancing user experiences through seamless front-end designs in React and TypeScript.

Experience

Authornate

Mid-Senior Full Stack Developer

Pakistan, Islamabad (Onsite)

Nov 2024 - Present

- Contributed in TrinityPad, a web and mobile platform for blockchain-based project investments, implementing Privy for authentication, ethers.js for web3 transactions, and a TypeScript-based backend using Express.js and Firebase.
- Played a crucial role in GameGPT, implementing frontend designs and integrating Web3 smart contracts, including successful deployment on the Ethereum testnet, facilitating an auction feature used by 1,000+ users.
- Led web3 authentication and secure transaction handling, ensuring seamless integration with blockchain technology.
- Actively collaborated on UI/UX design in Figma, contributing to user-friendly and visually engaging interfaces.

RoboDialog

Founder

Pakistan Remote

Feb 2024 - Present

- Developed a full-stack web platform using Next.js, Node.js, and MongoDB, ensuring seamless integration of AI chatbot services.
- Architected scalable back-end systems with MongoDB, utilizing indexing, reducing database query times by 40% under heavy load.
- Implemented Vector Database using FAISS, Hugging Face Vector Model and Langchain for RAG Model in Node.js
- Designed highly responsive, pixel-perfect frontend interfaces using React and Next.js.
- Implemented secure authentication and tokenization, protecting user data and enhancing application security in compliance with industry standards.
- Deployed and managed the platform on VPS hosting, optimizing server performance and maintaining 99.9% uptime.

SMB DigitalZone

Lead Full Stack Web Developer

UAE, Dubai Remote

Oct 2023 - Feb 2024

- Built scalable web applications using Next.js, Cloudinary, Node.js, and MongoDB, ensuring smooth frontend-backend synchronization and a 20% improvement in page load speed.
- Integrated Major social media for connecting accounts and posting to their platforms like Facebook, Youtube, TikTok , Twitter, etc.
- Implemented JWT-based authentication and OAuth for third-party logins, significantly enhancing user security and data protection.
- Designed and developed E-commerce, blog, company, and other websites with improved security and SEO optimization.
- Collaborated closely with product managers and designers, delivering detailed and highly optimized UI/UX experiences.

SUMIAKA HR

Junior Full Stack Web Developer

United States Remote

August 2023 - September 2023

- Developed comprehensive HR management tools, ensuring an intuitive user interface with React and Material-UI for enhanced productivity.
- Collaborated with the design team on Figma to create user-friendly interfaces.

CARMED

Mid Senior Full Stack Web and Mobile Developer

Pakistan Remote

January 2023 – July 2023

- Developed a cross-platform mobile application using React Native, integrating Firebase for real-time updates, resulting in a 30% reduction in response times for live user interactions.
- Collaborated closely with the design team on Figma, iterating on UI/UX to deliver a highly intuitive and visually compelling mobile experience.
- Proactively identified and addressed security vulnerabilities in Next.js, Express, and React Native, reducing potential security risks by 25%.
- Integrated cloud-based solution to enhance application scalability.

SKUPREME

Junior Frontend Web Developer

United States Remote

June 2022– January 2023

- Developed responsive and visually engaging user interfaces using Next.js and styled-components
- Received recognition from project managers for consistently delivering high-quality UI/UX solutions ahead of deadlines, contributing to the overall success of multiple projects.
- Actively participated in team code reviews, identifying potential issues early on and contributing to a 15% improvement in code quality and maintainability.
- Created reusable frontend components in React, accelerating development speed and improving design consistency across the platform.

Fiverr and Other Projects

Software Developer

Pakistan Remote

Feb 2021– June 2022

- Developed responsive and visually engaging user interfaces using Next.js, React Native Expo, Node.js, MongoDB, Cloudinary, Typescript and styled-components
- Maintained clean and sustainable codebases, ensuring project maintainability and delivering on time with a 100% success rate for project deadlines.
- Used MongoDB indexing and optimized queries to improve database performance, leading to a 30% increase in app responsiveness.
- Designed and developed full-stack applications with a focus on frontend precision and backend scalability

Education

Microverse

Full Stack Development Bootcamp

United States Remote

January 2023 – Aug 2023

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.

Fazaia Degree Collage

Higher school

Pakistan

January 2020– March 2022

Skills

Frontend: React, React Native, Next.js , Typescript

Backend: Node.js, Express , Socket.io

Database: Firebase, MongoDB, AWS, Cloudinary, Vector FAISS

Other Tools & Methods: Ethers.js, Shopify, Figma , GitHub, Context-API, Stripe, Material UI, Styled-components, Graph API, Third party integrations, Google Maps API, Hostinger VPS hosting.
