

Sami Ullah Khan

Software Engineer

I am a skilled and experienced front-end developer with over three years of experience in React JS and Material UI. I possess a strong understanding of web-based responsive applications and have a proven track record of managing and developing the admin section from scratch with full proficiency. Throughout my career, I have successfully developed and delivered multiple international projects for US clients. I am eager to bring my skills and experience to a dynamic team in an immediate joining role, where I can contribute to impactful projects and further refine my technical abilities.

React JS Developer

Ford 9 Solutions

04/2020 - 11/2021

Mingora, Pakistan

A company which provides internships and other paid programs to software engineers for future development purpose.

PROJECTS

OMS (overcomings)

- Worked on **Overcomings**, a US-based food management project focused on organizing and managing food resources efficiently. Contributed to building features for tracking inventory, managing food distribution, and streamlining operations to enhance user experience and optimize resource utilization.

Car Rental By Owner

- Developed a **Car Rental by Owner** web application and admin panel using **React JS**, enabling users to browse, book, and pay for car rentals seamlessly. Designed the admin panel for efficient management of car listings, rentals, payments, and user accounts, ensuring a dynamic and responsive experience for both users and administrators.

Toiyabe (Indian Health Project)

- The Toiyabe Wellness team operates a health clinic and are dedicated to serving as a resource and guiding hand to tribal communities with their new mobile app.

Divorce Play Book (legal Tech)

- This subscription-based web app is a user-friendly approach to divorce, with access to everything from basic legal information, to complete courtroom walkthroughs.

EDUCATION

BS Computer Science

University of Swat

09/2015 - 01/2019

Pakistan

Final Year Project

- Car Management System developed in PHP
