

Raja Muhammad Awais

Nationality: Pakistani | **Phone number:** (+92) 3155406093 (Mobile) | **Email address:** muhammadawaisturk1@gmail.com | **LinkedIn:** <https://shorturl.at/ASfIG> | **Address:** Abbottabad , Pakistan (Home)

ABOUT ME

I am a creative problem-solver with a passion for finding solutions using both technical skills and innovative thinking I work well in fast-paced environments and always look for ways to improve processes and performance My focus is on delivering high-quality results with attention to detail ensuring continuous improvement and long-term success

EDUCATION AND TRAINING

2020 – 2024 Abbottabad, Pakistan
BS COMPUTER SCIENCE Abbottabad University Of Science And Technology

Website aust.edu.pk

2016 – 2018
FSC Government Higher Secondary School Harno Abbottabad

2014 – 2016
MATRICULATION The Learning Post School System Dhamtour Abbottabad

PROJECTS

2023 – 2024
Application Classification Using Deep Packet Inspection

This project focuses on classifying applications through Deep Packet Inspection (DPI). By examining network traffic at a detailed level, the system categorizes applications based on their data patterns and behaviors. The results are then visualized using the ELK stack (Elasticsearch, Logstash, Kibana), providing comprehensive insights and real-time monitoring capabilities. My responsibilities include configuring DPI tools for accurate classification, setting up the ELK stack for effective data visualization, and ensuring seamless integration for actionable insights.

HONOURS AND AWARDS

15/07/2023
Certificate of Participation - Ubuntu, DDPK, NDPI, ELK Workshop – University of Engineering and Technology, Taxila

Successfully completed a comprehensive 3-day workshop focused on Ubuntu, Data Plane Development Kit (DPDK), Network Deep Packet Inspection (NDPI), and the ELK stack. The workshop provided hands-on experience with these powerful tools and frameworks, enhancing skills in networking, data analysis, and system optimization.

CREATIVE WORKS

CURRENT
Contributing to MPhil Research: Application Classification and Identification Using Machine Learning

Actively involved in an MPhil research project focused on the classification and identification of applications using machine learning techniques. My contributions include developing and fine-tuning machine learning models, analyzing large datasets, and applying advanced algorithms to improve the accuracy and efficiency of the classification process. This work not only advances academic research but also has practical implications in enhancing application security and network management.

SKILLS

ELASTIC STACK (ELK) | DDPK | SIEM Tools: Wazuh, OSSEC, Splunk | Network Security Risk Analysis | Linux (Red Hat, Debian) | - Ability to work with several operating systems: Windows 10/8.1/8/7/XP, Mac OS, Ubuntu/Linux. | Python

Language - Basic knowledge | Server management on VMware infrastructures | SPLUNK | firewalls Configuration | CI/CD (Gitlab CI) | CI /CD | Experience in the application monitoring with ELK Stack Prometheus | Cloud (AWS, Oracle Cloud Infrastructure) | Ubuntu / AWS | Proficiency in configuring and managing OSSIM, Graylog, Wazuh and TheHive | GIT version control, Linux Command | Linux (Terminal Commands, Bash/Shell) | DevOps: AWS, Git.

● LANGUAGE SKILLS

Mother tongue(s): **URDU**

Other language(s): **ENGLISH**

● HOBBIES AND INTERESTS

Lover of Literature, Philosophy & Human Psychology

I am a lifelong learner with a particular interest in how literature philosophy, and psychology intersect. I explore how literary narratives shape human emotions and ideas how philosophy challenges our moral and existential beliefs and how psychology helps us understand the mind and behavior

● RECOMMENDATIONS

Dr Muhammad Zeeshan Assistant Professor

Dr. Muhammad Zeeshan has been a significant mentor and academic guide throughout my time at Abbottabad University of Science and Technology. His expertise in cyber security and his supportive guidance have greatly influenced my academic and professional development. Dr. Zeeshan can provide valuable insights into my skills, work ethic, and contributions to various projects and research.

Email zeeshan@aust.edu.pk | **Phone** (+92) 3145216133

Dr. Asim Shahzad Assistant Professor

Asim Shahzad has been an influential faculty member in the Computer Science department at Abbottabad University of Science and Technology. Expert in Machine Learning and Classification.

Email asimshahzad@aust.edu.pk

Dr. Gohar Zaman Assistant Professor

PhD in Data Science. Specializes in advanced data analysis techniques and statistical modeling

Email goharzaman@aust.edu.pk
